Sustainable Development Statement

We have made a commitment to contribute meaningfully to the UN Sustainable Development Goals, creating shared value for our clients and our communities while safeguarding our planet. We will apply our expertise, diversity of thinking and independence in the quest for a safe, sustainable, and resilient future for all. This is how we will shape a better world.

Strategy

The Integra Security Group Ltd Strategy states we will support the UN Sustainable Development Goals by working with clients on aligned projects including, but not limited to, climate action, sustainable cities and resilient communities.

Our collaborations with clients, our approach to projects, and our investments will be guided by six principles, to:

- Improve human health, safety and wellbeing through the quality of the built environment and health of the planet.
- Transition to a zero-carbon world where everyone has access to clean energy and potable water.
- Adopt circular economy principles leading to decoupling of economic growth and consumption.
- Enhance communities' resilience to climate change and risks.
- Create social value to achieve a more inclusive, equitable and just society.
- Respect planetary boundaries and reverse the damage done to date.

Implementation

Every part of our firm has a role to play in making sustainable development central to our business.

- We will use the six principles to guide our business and services strategies and shape the delivery of our projects.
- We will develop collaborative relationships with our clients to deliver sustainable development and invest in partnerships and ventures that enable innovation and amplify our contribution.
- We will invest in learning and research to continually increase the knowledge and skills our people need to deliver sustainable development.
- We will assist the most vulnerable in society through our Community Engagement programme.
- We will integrate sustainable development in our projects and corporate practices through the application of our business Policies (Environment; Health, Safety and Wellbeing; Quality; Equality, Diversity and Inclusion; Ethical Conduct) and our Management Systems guidelines.
- We will communicate our progress to our clients and stakeholders via our regular communication means.
